We Want to Be a Partner in EPA's National Partnership for Environmental Priorities

IDENTIFYING INFORMATION

Name of Organization: Automotive Recyclers Association (ARA)
Principal Contact: Jon Samson
Authorizing Official: _____
Address: 3975 Fair Ridge Drive, 20-N
Phone/Fax: (703) 385-1001 / (703) 385-1494
EPA RCRA ID Number: N/A

Facility Name: _____
Title: Manager, Government Affairs
Title: _____
City/State/Zip: Fairfax, VA 22033
Email: jonsamson@a-r-a.org
Date: September 20, 2007

PARTNER AGREEMENT

Our organization is choosing to become a partner in EPA's National Partnership for Environmental Priorities. Our goal is to reduce the quantity of one or more Priority Chemicals currently found in our products, processes, or releases using techniques such as source reduction, recycling, or other materials management practices. In this enrollment application, we identify one or more voluntary goals that we believe we can achieve as partners in this program. The voluntary goal(s) provided below is an initial estimate and may change over time. We may revise our goal(s) or withdraw from the program at any time. If/when we choose to revise our goals or withdraw from the program, we will notify EPA.

GOAL #1. Chemical Name: Mercury **CASRN:** 7439-97-6

Narrative description of proposed project: _____
ARA, through our Certified Automotive Recycler (CAR) program, extracts mercury-bearing switches from end-of-life vehicles.

How we will measure success: _____
ARA will measure success by tracking the number of switches retrieved by CAR program members. We will work with End of Life Vehicle Solutions (ELVS) to collect and use data from the National Vehicle Mercury Switch Removal Program database for tracking.

1a. Our voluntary **source reduction** goal for Chemical #1 is to reduce the amount of this chemical generated/used from a baseline amount of _____ pounds in _____ (month/year) to a reduced amount of _____ pounds generated/used by _____ (month/year).

1b. To accomplish this goal, we will use the following source reduction options (check all that apply):

- | | |
|---|--|
| <input type="checkbox"/> Equipment or technology modifications. | <input type="checkbox"/> Process or procedure modifications. |
| <input type="checkbox"/> Reformulation or redesign of products. | <input type="checkbox"/> Substitution of less toxic raw materials. |
| <input type="checkbox"/> Improvements in inventory control. | <input type="checkbox"/> Improvements in maintenance/housekeeping practices. |
| <input type="checkbox"/> Other (describe): _____ | |

2a. In addition to, or in lieu of using source reduction methods, our voluntary **recycling or recovery** goal for Chemical #1 is to increase the recycled or recovered quantity of this chemical from a baseline amount of 0 pounds in October, 2007 (month/year) to an increased quantity of 246 pounds by September, 2008 (month/year).

2b. To accomplish this recycling or recovery goal, we will use the following options (check all that apply):

- | |
|---|
| <input type="checkbox"/> Direct use/reuse in a process to make a product. |
| <input type="checkbox"/> Processing the waste to recover or regenerate a usable product. |
| <input type="checkbox"/> Using/reusing waste as a substitute for a commercial product. |
| <input checked="" type="checkbox"/> Other (describe): <u>We will remove mercury-bearing switches from end-of-life vehicles.</u> |

3. We have a Quality Assurance/Quality Control Plan for data (check which applies). ☒ Yes ☐ No
